

Karine GUENAN

Vice-President of ZEROe Ecosystem
AIRBUS

Karine leads the hydrogen ecosystem deployment for the successful entry into service of the ZEROe Aircraft by 2035. Moreover, she is responsible for developing the new energy business development origination and operations, including Synthetic Fuel and Carbon Capture.

Previously, Karine was Vice-President Financing & Guarantees, coordinating Airbus's customer, structure & project financing activities, with a focus on the monitoring of the group's exposure and supervising Airbus Financial Services in Dublin and Airbus Bank in Munich.

Prior to that, Karine has held various Vice President roles in Commercial, as VP Leasing, Asset Management & Freighters, and Finance, VP Structured and Customer Finance, at ATR (a joint venture between Airbus & Leonardo).

Before joining Airbus, in her long career at Air Liquide, Karine was Head of Infrastructure Project Finance and Treasury for the Engineering and Construction division of Air Liquide.
