NEVER COMPROMISE SAFETY
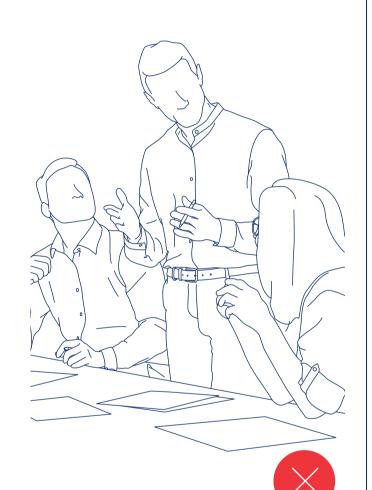

WRONG IS WRONG
even if everyone is doing it
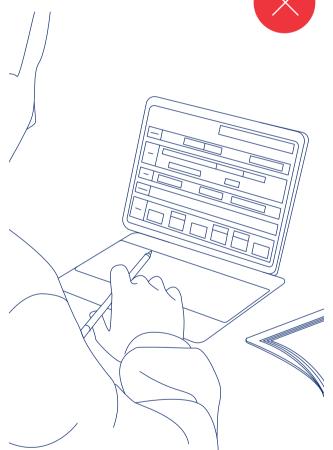

RIGHT IS RIGHT
even if no one is doing it

"I can validate unrealistic plannings because I know another department is going to be even more late".

"I can deviate from the procedure because the training contradicts the instruction".

"I can sign without reading the document and rely on the other signatories to do the reading and checking".

Have you experienced something in contradiction with rules & procedures ? **Please speak up !**
